

Figure 2.2. Generalized geological map of the Himalayan range after LeFort (1996). Boxes outline the boundaries of study areas and are from east to west: Dudh Kosi-Everest transect, eastern Nepal (Figure 2.4); Annapurna-Manaslu-Ganesh region, central Nepal (Figure 2.5); Garhwal Himalaya, India (Figure 2.6). Names of some of the High Himalayan and North Himalayan granite bodies are included for reference. Legend is followed throughout the dissertation.
